

Dear Sir/Madam,

It is with great pleasure that we, the PRISMA project partners, welcome you to join us to a third **technical day** as a part of the **PRISMA project**, entitled:

Treatment of sediment from inland waterways; Current and new techniques

**The event takes place in Rotterdam, the Netherlands, on May 24nd 2013.
The specific venue details will be published
together with the program early April**

PRISMA (Promoting Integrated Sediment Management) is an initiative intending to develop and test adapted methods for dredging, treatment of sediment, and develop beneficial reuse through field trials and pilot projects.

The project is partly funded by the INTERREG IVA "2 Seas" Cross border cooperation program 2007-2013. The project partners are Waterwegen en Zeekanaal NV (Belgium), Broads Authority (UK), Ecole Mines de Douai (France) and Hoogheemraadschap van Schieland en de Krimpenerwaard (HHSK, the Netherlands).

The technical day aims to gather all professionals working in the field of dredging, treatment of sediment, land & water management and related authorities across the partner countries.

During the day we want to offer the attendants a total of ± 4 presentations on a range of related topics followed by a question and answer opportunity. The proposed time schedule is:

- | | |
|---------------|--|
| 10.00 - 10.45 | 1st plenary presentation – all participants (approx. 100 people) |
| 11.15 - 12.00 | 2nd plenary presentation – all participants (approx. 100 people) |
| 13.30 - 14.30 | three presentations / workshops, simultaneously. Per workshop maximum 35 people. |
| 15.00 - 16.00 | three presentations / workshops, simultaneously. Per workshop maximum 35 people. |

Additionally, there will also be opportunity to visit exhibition stands illustrating the work of companies in the field of treatment of sediments.

We would like to offer you the opportunity to be part of this exciting event, either by joining the audience and or by giving a presentation (in total eight opportunities for presentations) / provide an exhibition stand about your organization's innovative techniques and equipment regarding the treatment of sediments.

We sincerely hope that you are interested in taking part in this free event and would be very happy to discuss your involvement in more detail. Therefore please send a brief content of what you would like to present. We look forward to your response prior to March 11th 2013.

For more information please contact:

- Yill Havers, PRISMA coordinator HHSK, (y.havers@hhsk.nl)
- Guido Verweij, Project officer for the PRISMA pilot in the Ringvaart, the Netherlands (g.verweij@hhsk.nl)
- Your local PRISMA contact

Yours Sincerely,

Yill Havers
